HARVEY COUNTY UTILITY PERMIT

The applicant(s) named below agrees to comply with the following permit requirements. The County reserves the right to inspect and approve any construction work performed within its right-of-way as it relates to the condition of the highway. Compliance shall be determined by the sole discretion of the duly authorized County representative. The requirements herein shall apply unless, due to unique local conditions, said County representative waives them in writing prior to installation. This permit is not intended to conflict with any utility owner's rights or duties, or with state or federal regulations.

Brief description of scope and location of work:

Conditions and Restrictions:

- 1.0 **Location Plan:** The Applicant shall furnish a completed location plan as an attachment to this Utility Permit application. This plan shall clearly identify road names, illustrate the proposed line, placement location in respect to right-of-way (ROW) and section line of the road(s) involved, and a description of the installation along the entire route.
- 2.0 **Inspection:** The County may provide an inspector during the installation of all lines to insure compliance with this Utility Permit. The utility facility owner shall provide reasonable cooperation.
- 3.0 **Requirements:**
 - A. Buried utilities in Harvey County shall be set at a minimum depth of thirty-six (36) inches below ground level. The County may require additional depth in areas identified as being silted or scheduled for future excavation.
 - B. Utilities shall not be placed over drainage structures.
 - C. Construction signing shall be provided by the Applicant and shall comply with the Manual on Uniform Traffic Control Devices.
 - D. All crossings of side roads and entrances shall be bored at the minimum depth.
 - E. Areas within the ROW damaged by the installation shall be repaired and restored to at least its former condition by the Applicant or the cost of the repair work caused to be performed by the County will be assessed against the Applicant.
 - F. Erosion problems resulting from construction shall be resolved by the Applicant at the expense of the Applicant in a manner approved by the County.

G. Methods of backfilling and compacting of open trenches and/or excavation shall be included in the permit, and will be subject to the approval of the County.

4.0 Non-Conforming Work: The County may halt the installation at any time if the applicant's work does not meet the requirements set forth in this Utility Permit

5.0 Hold Harmless: The Applicant, his successors, or assigns shall save this County harmless from any and all damages resulting from the negligence or non-compliance of the Applicant. A copy of a certificate of insurance naming this County as an additional insured for the permit work or proof of self insurance shall be provided to the County prior to beginning of work. The minimum limits of liability under the insurance policy or the proof of self insurance shall be \$1,000,000.

6.0 Relocation: In the event the County deems it necessary to make such alterations or improvements to the road ROW, the Applicant shall at his own expense remove or relocate utilities to accommodate and conform to such improvements as directed by the County.
