

ESF 14 - Long-Term Community Recovery

Coordinating Agency:

Harvey County Emergency Management

Primary Agency:

Harvey County Board of County Commissioners

Support Agencies:

American Red Cross
Federal Emergency Management Agency
Harvey County Animal Response Team
Harvey County Extension Office
Harvey County Health Department
Harvey County Planning and Zoning/Environmental
Harvey County Road & Bridge
Harvey County Sheriff Office/Detention Center
Harvey County Treasurer/Driver's License
Prairie View Mental Health
State Animal Response Team (SART)
The Salvation Army
United Way of the Plains

I. Purpose and Scope

A. Purpose

1. The purpose of ESF 14 is to coordinate the long term recovery of Harvey County in an efficient and effective manner.

B. Scope

1. This ESF is structured to provide coordination during large-scale or catastrophic incidents that require assistance to address significant long-term impacts in the affected area.
2. Specifically the scope of ESF 14 is to:
 - a. Provide for coordinated measures and policies designed to facilitate recovery from the effects of natural and technological disasters, civil disturbances, or acts of domestic terrorism.
 - b. Provide for effective utilization of resources to support efforts to aid long-term community recovery, stabilize local and regional economies, and reduce or eliminate risks from future incidents.
 - c. Assist in coordinating the damage assessment process in order to determine the need for assistance.

- d. Provide a government conduit and administrative means for appropriate voluntary and private sector organizations to assist Harvey County governments during the recovery and mitigation phases.
- e. On-going and post-incident assessments of infrastructure and assessment of total damages including insured and uninsured losses.
- f. Providing technical assistance to include engineering expertise, construction management, contracting and real estate services.

II. CONCEPT OF OPERATIONS

A. General

1. ESF 14 is organized consistent with the State of Kansas EOC and the requirements of the National Response Framework, the National Incident Management System, and the Incident Command System in order to provide incident assessment, planning, procurement, deployment, coordination and support operations to Harvey County through the County Emergency Response Team, Area Operations and Regional Incident Management Teams (IMTs) to provide a timely and appropriate response to an emergency or situation.
2. Procedures, protocols and plans for disaster response activities are developed to govern staff operations at the Harvey County EOC and in the field. These are in the form of Emergency Operations Plan (i.e., Base Plan) and corresponding Appendices, Incident Annexes, Support Annexes and Standard Operating Guidelines, which describe ESF 14 capabilities. Periodic training and exercises are also conducted to enhance effectiveness.
3. In a large event requiring local or State mutual aid assistance, ESF 14 will work with its support agency counterparts to seek, procure, plan, coordinate and direct the use of any required assets.
4. Throughout the response and recovery periods, ESF 14 will evaluate and analyze information regarding the availability of volunteers and donated goods and services.
5. A volunteer representative will serve a liaison role at the Harvey County EOC to assist in coordination of all activities under ESF 14.
6. Requests will be made of the State of Kansas EOC ESF 14 and ESF 2 to assist in managing incoming volunteer and donations related calls placed from outside of Harvey County. This assistance will come by referring interested parties to the Kansas AID MATRIX website or by directing them to contact United Way 2-1-1. The Harvey County Emergency Management Public Information Officer will publicize the importance of outside callers using these locations for receiving volunteer and donation instructions prior to citizens sending donations or arriving for volunteer assignment.
7. Pre-designated warehouse space will be utilized by ESF 14 to receive, sort, inventory and redistribute donated goods to agencies and assisting

organizations.

8. Volunteer coordinators will establish reception centers adjacent to donations warehouse facilities. A volunteer reception center will be coordinated by the United Way of the Plains. Information will be coordinated and dispersed via 211.

9. Damage Assessments:

Timely and thorough disaster assessments will allow Harvey County to:

- Prioritize response operations
- Request mutual aid
- Alleviate human suffering
- Manage resources
- Minimize recovery time
- Document the need for State and/or Federal assistance
- Mitigate against future disasters
- Plan for long term recovery activities

Any of the hazards identified in the Harvey County Hazard Analysis Study could cause extensive public and private property damage creating a need for disaster assessments.

The Harvey County EOC will monitor, collect, process and maintain assessment information reported from the field. Additional information may come from emergency repair crews, other County or City employees, business and industry, private citizens and/or the media.

Rapid Assessments

In most cases, an assessment will be completed within a few hours of the incident, while detailed assessments may take days or weeks. As additional information becomes available, updates will be made to the Harvey County EOC and passed on to the Kansas Division of Emergency Management. A rapid assessment is a quick evaluation of what has happened and used to help prioritize response activities, allocate resources and determine the need for outside assistance.

During rapid assessments, emphasis will be placed on collecting and organizing information in a manner that will facilitate timely decision-making. This will allow both field personnel and the EOC to:

- Make informed operational decisions regarding public safety
- Set response priorities
- Allocate resources and personnel to the areas of greatest need
- Identify trends, issues and potential problem areas
- Plan for ongoing operations

It is anticipated that most rapid assessment information will be forwarded to the EOC from the field by phone and radio. In most cases, enough rapid assessment information will come from first responders already in the field. But if the situation dictates, personnel may be deployed specifically to conduct damage

assessments and to report information to the EOC as quickly as possible.

If the nature of the incident dictates, rapid assessments will include structural safety evaluations to determine building integrity and ensure the safety of emergency responders. This type of technical guidance will be provided to first responders as long as necessary.

If necessary, rapid assessments will also include safety inspections of critical facilities and infrastructure, such as hospitals, the EOC, potential shelters, evacuation routes, and others as needed. Rapid assessments will also include utility safety checks for electric hazards and combustible gas.

The structural integrity of emergency shelters and other emergency facilities will be determined by a team developed by EOC/City Engineering department, the American Red Cross, fire departments and other essential personnel as identified by the EOC.

Based on information gathered during the rapid assessment phase, the ESF #14 Coordinator will decide when and where to conduct detailed disaster assessments. Both rapid and detailed disaster assessments will consider private property damage (i.e., losses by persons and damage to residences and small businesses), as well as public damage (i.e., damage to infrastructure, including but not limited to roads, bridges, utilities, government facilities and private not-for-profit entities).

The rapid assessment will include information regarding the:

- Area or jurisdiction affected
- Known injuries
- Known fatalities
- Critical facilities damaged or destroyed
- Evacuations
- County emergency declared
- Mutual aid activated
- Any state or federal resources anticipated

Harvey County will work closely with the Kansas Division of Emergency Management (KDEM) throughout the disaster assessment process. County EOC will use disaster assessment forms consistent with those developed by KDEM to ensure a standard reporting method is used and that all damage assessment activities are conducted in accordance with State and Federal requirements. In most cases, the American Red Cross (ARC) will also conduct assessments to determine the immediate needs of people affected by the disaster. Harvey County will work closely with the ARC to share assessment information. Depending on the event, the ARC and members of the private sector may partner with the County to conduct joint disaster assessments. In rare cases, the scope and magnitude of the event may dictate an expedited disaster assessment to gather enough information to justify a request for a major disaster declaration.

If a Federal declaration is made before detailed disaster assessments are

conducted, the detailed damage assessment will become a part of the ongoing recovery process.

Detailed Disaster Assessment

A detailed disaster assessment is needed to document the magnitude of public and private damage for planning recovery activities and to justify the need for State and Federal assistance. A detailed disaster assessment is also necessary to meet the information needs of the public, elected officials and the media. During detailed disaster assessments, emphasis will be placed on collecting and organizing information in a manner that will allow the EOC to:

- Evaluate the overall total scope, magnitude and impact of the incident
- Prioritize recovery activities
- Plan for ongoing recovery and restoration activities
- Project the total costs of long-term recovery
- Document the need for supplemental assistance

Detailed disaster assessments will generally begin following the completion of response activities to protect life and property or will be completed as additional disaster assessment information becomes available. Depending on the magnitude of the disaster, a detailed disaster assessment could last for days or even weeks. The EOC Team will decide when the situation allows for detailed disaster assessments. Harvey County Road and Bridge Department will contact, organize, brief and deploy detailed damage assessment field teams in the unincorporated areas of the county. In the Cities, the Mayor or designated personnel will make this determination. In most cases, field assessment teams will be deployed to the damaged areas to gather information and report it to the EOC for analysis and reporting. In addition to field assessments, it may be necessary for the Emergency Management Agency to assign personnel to estimate projected disaster costs to determine the need for State and Federal assistance. For example, the total cost of a large debris removal and disposal operation may be projected based on formulas applied to data already gathered from the field.

Detailed assessments will include information regarding the:

- Number of persons affected in disaster area
- Number of persons evacuated
- Number of shelters open
- Number of persons in shelter
- Number of confirmed injured
- Number of confirmed fatalities
- Number of confirmed missing persons
- Number of homes and businesses with damage
 - Destroyed
 - Major
 - Minor
 - Affected

- Uninsured loss
- Number of homes in flood plain
- Number of acres burned
- Number of critical care facilities damaged
- Hospitals
- Assisted living facilities

- Number of municipally or county owned facilities
- Fire, police, city hall, schools
- Road, bridge, infrastructure damage
- Road closures
- Utility damage
- Power
- Water
- County declaration issued

There are two types of detailed assessments:

Private Property

- Detailed assessments on homes, apartment dwellings and businesses are needed to document the extent of damage to individuals, families and businesses.
- The number of private property damage assessment teams and team members required will be based on the scope and magnitude of the damage. Depending on the magnitude, the Kansas Assessment Team may be deployed by KDEM to conduct this assessment and placard buildings to indicate if they are safe to enter. The ESF #14 Coordinator will work with ESF #15 to ensure information regarding the meanings of inspection tags and markings are made available to the public.
- In addition to documenting the locations and extent of damage, the private property damage assessment teams should attempt to determine the socio-economic impact of the disaster on the affected community. For example, the loss of a major business or industry that creates a temporary unemployment situation.

Public Property

- Used to document the extent of damage to public facilities, roads, bridges, utilities and other publicly owned structures.
- Public property damage assessment teams should be comprised of individuals with construction estimating skills who are familiar with determining damage to public buildings, roads, bridges and other infrastructure.
- The number of public property disaster assessment teams and team members required will be based on the scope and magnitude of the damage. When requested, KDEM representatives will assist with the public property damage assessment process.
- Public property damage assessment team leaders will be assigned based on the type of damage to be assessed. Depending on the type of disaster, teams will be organized by expertise to document damage.

Both private property and public property damage assessment teams will collect

detailed information and document it on the forms included in this Annex. To the extent possible, photographs and video will be taken to provide documentation and historical references.

Depending on the nature of the disaster, a team of engineers and architects may be needed to assess the structural integrity of one or several buildings, as well as provide advice to emergency crews during initial rescue and recovery operations. In many cases, technical teams will be required to confirm initial damage assessments and determine the best course of action for repairs, demolition and/or rebuilding strategies. Kansas Division of Emergency Management may facilitate this by deploying a KAT member to the area. KDEM may initiate a Preliminary Damage Assessment (PDA). PDAs are joint local, State and Federal damage assessments used to document the need for supplemental Federal assistance. PDAs may be conducted to document the need for Individual Assistance (IA) Programs and/or Public Assistance (PA) Programs.

A Harvey County staff member will accompany all PDA Teams. In most cases, the staff member will have been a member of the Detailed Assessment Team and should be familiar with the damaged area(s). During a PDA, the role of the Harvey County staff member is critical, as they are to ensure all damage is observed and documented by KDEM, the Federal Emergency Management Agency (FEMA), the Small Business Administration (SBA) and any other agencies potentially providing assistance.

Based on the results of the PDA, KDEM may recommend that the Governor request a Presidential disaster declaration for Individual Assistance or Public Assistance, or both. Harvey County will work closely with the KDEM to ensure all types of disaster assistance are considered during the PDA process. For example, if the extent of damage does not warrant a Presidential disaster declaration, the SBA may announce a declaration to make low interest loans available to individuals and small businesses. Or if the disaster warrants, other types of Federal disaster assistance may be available to a local jurisdiction, such as funds from the Federal Highway Administration's (FHWA) Emergency Relief Program to repair damaged infrastructure.

If the County receives a Presidential Disaster Declaration based on a request from the Governor (see ESF #5 -Emergency Management for information regarding the declaration process), several programs may be made available to assist Harvey County government, residents and businesses. Even without a Presidential disaster declaration, there are programs that may assist those affected by the disaster. In some instances, local government may request immediate assistance from Federal agencies without a damage assessment, such as assistance from the Environmental Protection Agency for Hazardous Materials incidents or the Corps of Engineers for flooding events.

10. Environmental Assessment

Assessing damage to the environment from a chemical and/or radiological will be

differentiated in the following categories:

- Damage to Containment Structures-

Damage to chemical or radiological containment structures will be handled by specifically trained hazardous material technicians or radiological specialists (Refer to ESF #10 Oil and Hazardous Materials).

- Contamination

Contamination of water, air, food, and exposed populations or animals will be determined by city or county environmental specialists and/or hazardous material technicians with specialized training and equipment to make those determinations.

- Biological

In cooperation with Kansas Department of Health and Environment (KDHE), local hospitals, and other regional health departments, the City-County Health Department will provide disease monitoring.

In addition, the Harvey County Health Department will coordinate the collection and testing of biological samples with KDHE and the Center for Disease Control (CDC)

The Harvey County Health Department will be responsible for coordinating the inspection of food preparation and food and water supplies with consultation coming from Harvey County Planning and Zoning and the Kansas Department of Agriculture. The Harvey County Health Department will assess the overall sanitation and living conditions in emergency facilities. Roads and Bridges Damage assessment of county roads, bridges and culverts will be accomplished by Harvey County Road and Bridge. Assessment of damage to city streets will be accomplished by the appropriate city street departments.

Utilities

Public utilities are assessed for damage by the appropriate utility providers. This information is to be reported to the Harvey County EOC for inclusion in reports to the State.

Private Business and Individuals

Damages sustained by private businesses and individuals are determined by the owners of the property and their insurance representatives. Damage assessments conducted by county, city or American Red Cross representatives are for the purposes of determining extent of damage only and numbers of people affected and are not an indication or promise of federal aid.

Private appraisers, insurance adjusters and others may obtain damage assessments reports for specific properties from the Damage Assessment Coordinator. Such information will be limited to that necessary to assist them in expediting the adjustment of claims.

The Harvey County Economic Development Agency will assist displaced or affected businesses from a disaster.

Agriculture

The Harvey County Extension Office in coordination with the Agricultural Stabilization and Conservation Service (ASCS) is responsible for conducting an assessment of agricultural damages. This information is passed to the State's Department of Agriculture.

11. Types of Disaster Declarations

Disaster Declarations occur at three separate levels, depending upon the magnitude of the emergency or disaster. The first is at the County level, then the State level and then the Federal level. Each declaration is defined and references are made to Federal Programs in the attached titled, "Disaster Declarations" in the file archive section of this plan.

12. Other/Vulnerable Needs Considerations

Harvey County VOADs along with the South Central Kansas VOAD, will coordinate with local housing authorities to identify housing resources for individuals and families permanently displaced by the event. When suitable, the Harvey County Housing Authority will provide assistance in identifying available Section 8 housing resources. Kansas Mid-Cap (Community Action Program) can also offer assistance in this area.

The Harvey County CDDO (Community Developmental Disability Organization) can assist for those special needs individuals who are displaced from their own residences due to a disaster.

Special needs individuals who are already receiving services from an organized entity will be cared for by that specific agency. Harvey County has recently formed a CART (County Animal Response Team). Animal welfare and coordination will begin at the local level with the Harvey County ART with direct assistance from the Kansas SART (State Animal Response Team) based out of Wichita. Agricultural stakeholders will notified via Harvey County Extension office which will be working in conjunction with the EOC. Extension will work with the Kansas Department of Agriculture.

Every effort will be made to provide crisis-counseling services to people affected by the disaster. Trained mental health counselors are available through the Prairie View(Mental Health Hospital) and numerous volunteer organizations have the ability to provide both faith-based and non-faith-based disaster counseling services. Coordination of behavioral and mental health services will take place between ESF 6 - Mass Care, Housing and Human Services and ESF 8 -Public Health and Medical Services.

B. Direction and Control

1. The ESF 14 Coordinating Agency is Harvey County Emergency Management which is appointed by the Harvey County Emergency Management , in coordination with local planning partners. The staff serving as ESF 14 Coordinator is appointed by and located in the Harvey County Emergency Management . When ESF 14 support is necessary, the ESF 14 Coordinator coordinates all aspects of ESF 14.
2. ESF 14 complies with the National Response Framework, and the National Incident Management System (NIMS). The NIMS guides the direction and control system adopted by the Harvey County Emergency Management , which functions as the official disaster prevention, protection, response, preparedness, recovery, and mitigation organization within Harvey County.
3. The ESF 14 system operates in two arenas; 1) Harvey County EOC; 2) field locations.
4. During emergency activations, all management decisions regarding transportation for Harvey County are made at the Harvey County EOC by the ESF 14 coordinator. Under the Incident Command System structure, the Planning, Logistics, Finance/Administration, and Operations Sections at the Harvey County EOC assist the incident commander in carrying out the overall mission.

C. Organization

1. County
 - a. During an activation of the Harvey County EOC, support agency staff is integrated with the Harvey County Emergency Management staff to provide support.
 - b. During an emergency or disaster event, the Harvey County EOC Operations Section Chief will coordinate resource support with the Human Services Branch Chief.
 - c. During the response phase, ESF 14 will evaluate and analyze information regarding volunteers and donations requests. Also, ESF 14 will develop and update assessments of the requirements for volunteers and donations in the impacted area and undertake contingency planning to meet anticipated demands and requirements.
 - d. The Harvey County Emergency Management will develop and maintain ESF14 and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. Primary and support agencies should develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. All such documents will be in compliance with the National Response Framework, The National

Incident Management System, the Incident Command System, and the Harvey County Emergency Operations Plan.

- e. The Harvey County Emergency Management shall be represented in ESF 5 (Information and Planning) and support disaster intelligence collection and analysis as relates to the ESF 14 scope.
- f. Individual organizations supporting ESF 14 will maintain contact with the Harvey County EOC ESF 14 liaison to advise them of status and response capabilities.

2. State of Kansas

- a. During an activation of the State of Kansas EOC, the Kansas Division of Emergency Management is the designated lead agency for State volunteer and donations services and will provide a liaison to facilitate requests for ESF 14 resources to local Emergency Operations Centers.
- b. During an emergency or disaster event, the primary and support agencies of ESF 14 at the State of Kansas EOC will report to the Human Services Branch Chief who reports to the Response Section Chief under the overall direction of the SEOC Manager.
- c. The Kansas Division of Emergency Management develops and maintains ESF 14 and accompanying Appendices, Annexes and Standard Operating Guidelines that govern response actions related to emergencies. However, support agencies may develop and maintain their own similar documents for internal use, which must be compatible with and in support of the overall Emergency Operations Plan. All such documents will be in compliance with the National Response Framework, the National Incident Management System, the Incident Command System and the Harvey County Emergency Operations Plan.

D. Alerts and Notifications

- 1. The Harvey County Emergency Management and/or Harvey County Emergency Management will notify the County Warning Point (Harvey County EOC) when information comes to their attention indicating that an emergency or disaster situation is developing.
- 2. The County Warning Point (Harvey County EOC), will notify the “on call” Emergency Duty Officer and/or ESF Coordinator for ESF 14 when Harvey County has been threatened or impacted by an emergency or disaster event as provided in the County Warning Point procedure.
- 3. ESF 14 will be activated or placed on standby upon notification by the Harvey County EOC. The representatives or designees of the coordinating agency will manage the emergency activities of ESF 14. If additional support is required, the ESF 14 coordinating and primary agencies may jointly manage ESF 14 activities.

4. Upon instructions to activate or placement of ESF 14 on standby, Harvey County Emergency Management will implement procedures to notify all ESF 14 planning team members and, if necessary, mobilize all personnel, facilities, and physical resources likely to be needed, based on the emergency circumstance.
5. When notified that the EOC has been activated, the ESF 14 coordinator will:
 - a. Conduct an immediate telephone survey of all Health and Human Service agencies to assess damage, determine ability to continue to provide services and determine support capabilities.
 - b. Establish contact with the Harvey County Public Information Officer to coordinate dissemination of media information relative to volunteers and donations.
 - c. Establish contact with the State of Kansas EOC ESF 14 coordinator to advise them of current situation, status and emerging needs.

E. Actions

1. Actions carried out by ESF 14 are grouped into phases of emergency management: Preparedness, Response, Recovery and Mitigation. Each phase requires specific skills and knowledge to accomplish the tasks and requires significant cooperation and collaboration between all ESF 14 agencies and the intended recipients of service.

Overall Actions Assigned to All Members	
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Participate in EOC briefings, incident action plans, situation reports and meetings to support ESF14.
2	Work with the private sector to ensure the disaster related needs of the business community are met.
3	Coordinate with EOC and incident command to provide lists of long term recovery personnel staff.
4	Use impact assessment to identify number of persons affected, homes damaged/destroyed, and infrastructure losses to predict the ongoing need for long term recovery efforts.
5	Identify long term recovery efforts for individuals with vulnerable needs.
6	Identify long term recovery efforts for animal welfare and agriculture stakeholders.
7	Coordinate with ESF6 and ESF 8 to acquire long term mental health services.
8	Identify long term impacts of environmental issues caused by the disaster.
9	Communicate with ESF-15 the status of long term recovery efforts for public information purpose.
10	Identify and provide strategy to assist citizens with unmet needs.

Overall Actions Assigned to All Members	
<i>Recovery (Post Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Continue to perform tasks necessary to expedite restoration and recovery operations.

2	Return borrowed resources and those obtained through agreement, lease, or rental when those resources are no longer required.
3	Evaluate response and recommend changes to ESF-14 Annex to correct shortfalls and improve future response activities.
4	Provide documentation for possible financial reimbursement process for recovery activities.
5	Participate in after action meetings and prepare after action reports as requested.
6	Coordinate with ESF 6 and housing authorities for sheltering and short/long term recovery efforts.
7	Support community recovery activities.
8	Work with the State and Federal government to administer disaster recovery programs.

Overall Actions Assigned to All Members	
<i>Mitigation Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Participate in the hazard identification process and identify and correct vulnerabilities.
2	Participate in mitigation planning team meetings and work with local emergency management to promote community preparedness.
3	Develop and implement mitigation strategies.
4	Support programs that provide individual assistance, public assistance, and hazard mitigation.
5	Provide ESF-14 representative for update of mitigation plan.

III. Responsibilities

- A. The following list identifies the responsibilities designated to each agency/organization for this ESF. The Coordinating and Primary Agency and their responsibilities are listed first. The Supporting Agencies follow in alphabetical order.

Coordinating: Harvey County Emergency Management	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Maintain a central personnel roster, contact, and resource lists to support ESF-14 tasks.
2	Identify who is responsible for initial notification of ESF-14 personnel.
3	Identify responsibilities for liaison roles with state and adjacent county transportation officials.
4	Develop standard operating guides and checklists to support ESF-14 activities.
5	Train personnel on EOC operation, the Incident Command System (ICS) and the National Incident Management System (NIMS).
6	Collect, process, and disseminate information to and from the EOC.
7	Develop and maintain ESF-14 Annex.
8	Participate in training, drills, and exercises.
9	Develop mutual aid and other support agreements with surrounding jurisdictions and the private sector.
10	Inform all personnel of their emergency responsibilities.
11	Identify how long term community recovery efforts in support of emergency operations will

	be directed and controlled.
12	Identify the trained personnel or agency responsible for conducting an environmental assessment.
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.
2	Manage the collection, processing, and dissemination of information between ESF-14 and EOC or incident command.
3	Provide field support for emergency responders at the scene.

Primary: Harvey County Board of County Commissioners	
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Extension Office	
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Health Department	
Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Planning and Zoning/Environmental	
Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Identify the trained personnel or agency responsible for conducting an environmental assessment.
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Road & Bridge	
Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Identify responsibilities for liaison roles with state and adjacent county transportation officials.
2	Collect, process, and disseminate information to and from the EOC.
3	Participate in training, drills, and exercises.
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Sheriff Office/Detention Center	
Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
Response (During Event) Actions for ESF 14 - Long-Term Community Recovery	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Supporting: Harvey County Treasurer/Driver's License	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Harvey County Administration	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Harvey County Appraiser	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Harvey County Clerk	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Collect, process, and disseminate information to and from the EOC.
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Harvey County Communications	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Collect, process, and disseminate information to and from the EOC.
2	Participate in training, drills, and exercises.
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.
2	Provide field support for emergency responders at the scene.

Harvey County Data Processing	
<i>Response (During Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Designate personnel to coordinate ESF-14 activities in EOC.

Kansas Department of Agriculture	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Identify the trained personnel or agency responsible for conducting an environmental assessment.

Kansas Department of Agriculture, Division of Water Resources
--

<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Identify the trained personnel or agency responsible for conducting an environmental assessment.

Kansas Department of Health and Environment	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Identify the trained personnel or agency responsible for conducting an environmental assessment.

Kansas Department of Health and Environment, Division of Environment	
<i>Preparedness (Pre-Event) Actions for ESF 14 - Long-Term Community Recovery</i>	
1	Identify the trained personnel or agency responsible for conducting an environmental assessment.

IV. Financial Management

- A. ESF 14 is responsible for coordinating with Harvey County Administration to manage ESF 14 expenses relevant to an event.
- B. During a response, each agency/department funds disaster operations from their current operating budget and are responsible for recording and tracking agency expenditures. If a federally declared disaster exists, each agency is responsible for seeking reimbursement in accordance to the formula has established by the Federal Emergency Management Agency via the FEMA/State Agreement.
- C. Expenditures by support entities will be documented by those entities and submitted directly to the Harvey County Administration or a designated Finance Service officer as soon as possible.

V. References and Authorities

REFERENCES

AUTHORITIES
